Do you know what an advance directive is?

Advance directives are a means for you to tell your health care givers about the care you wish to receive or not receive should you ever become unable to tell them of your wishes. There are two forms of advance directives, The first is a Living Will. The other is known as a "durable power of attorney for health decisions," or may also be called "durable appointment of a surrogate health care decision." Please discuss your advance directive choices with your Primary Care Physician."
